Corona CoVID19 Pandemic

16th, March 2020

Dear Sir/Madame,

As you certainly do as well as we do, everyone is following the latest news around the corona-infection during these days.

Considering the fact that your company is a key customer to JUTEC and our products, we would like to inform you that we remain available for delivery across our product range. Our supply chain is stable and we are not directly dependent on high-risk suppliers.

JUTEC does “Made in Germany”! - We manufacture all confections and products at our factory in Rastede, Northern Germany. We herewith assure that we undertake all measures to ensure an uninterrupted supply of goods during this period of corona pandemic.

As a consequence of the country-specific border and pandemic management, it may lead to delays of delivery times. We kindly would ask you to put this into consideration before placing your order.

Our international sales team and your personal JUTEC sales manager is looking forward to get in touch with you by a phone- and/or video-call.

Do not hesitate to talk to us. Let us hope in common that this period will pass as soon as possible.

Best Regards,

Joern-Bo Hein

JUTEC GmbH

General Manager / Member of the Board
